PROFESSIONAL EXPERIENCE

Software Developer Internships in Python, C#, and JavaScript   Prosper IT Consulting • Aug., Sept., Nov., 2021
- Three, two-week internships, each focused on creating a web application with a particular language.
- Provided real-world technical experience, in a simulated, real-world job setting.
- Worked as part of a development team, utilizing popular project management methodologies.

Web Developer   Self-Employed • April, 2020 – June, 2021
- Developed a web application using Javascript, JQuery, Bootstrap, CSS, and HTML.
- The application is presently available for use at https://because-reasons.herokuapp.com.
- Developed a library to manage information trees (each node having multiple child nodes), including searching, insertion, deletion, selection, merging, sorting, filtering, importing, and exporting.
- Developed a library of various functions for assistance in troubleshooting, type checking and error handling.
- Developed a library to handle interaction between the application and localStorage / sessionStorage.

Info Tech Assistant   University of Vermont College of Medicine • Burlington, VT • October, 2013 – May, 2019
- Assisted faculty, staff, and students with software, hardware, networking, audio/visual, and teleconferencing issues.
- Diagnosed and replaced malfunctioning components in desktop and laptop computers.
- Wrote and maintained user and IT staff documentation for common support procedures.

Software Developer   Data Systems, Inc. • Burlington, VT • February 2010 – September 2011
- Developed customized functionality for an accounting software package.
- Produced accounting-related software using ProIV, PHP, CSS, JavaScript and MySQL.
- Developed warehouse management software for use on handhelds over Wi-Fi.
- Integrated PRO-IV with Business Intelligence Reporting Tools to generate and print PDF reports.
